month, as an exercise ground, for the soldiers stationed within the garrison. Now, Sir, I appeal to you, as the acknowledged champion of metropolitan improvement, and ask your aid, in behalf of this densely peopled locality, in urging the Government to grant at once this highly desirable alteration, for no part of London is so destitute of "breathing" places as the Tower Hamlets. I had intended speaking also of the enclosure in Trinity-square, Tower-hill, admission to which can only be obtained by paying "to some one" a fee of two guineas per annum, but will reserve that for a future occasion.—N.

MEETINGS OF SCIENTIFIC BODIES

Held during the ensuing week.

TUESDAY, Feb. 27.—Institution of Civil Engineers, 8 P.M.
WEDNESDAY, 28.—Society of Arts, 8 P.M.
THURSDAY, March 1.—Royal Society, 8½ P.M.; Society of Antiquaries, 8 P.M.
FRIDAY, 2.—Archæological Association, 4 P.M.

TO CORRESPONDENTS.

Received.—"Z. Z. Z." (ask a merchant), "J. N. C.," "T. C.," "W. J.," "C. B., jun.," "C. H. W." (thanks), "D. T." (Hull), "G. P.," "F. A.," "F. S.," "W. W.," Derby (thanks: such an arrangement does not deserve record), "W. H.," "A. B. H." (we should say, as in heraldry, that the *south* wing of Buckingham Palace is the "right"), "Constant Reader," "H. Lee" (we are unable to advise), "J. C." (we should use the Cæsi), "F. E. K.," "W. D." (already mentioned), "J. G." (the suggestion has been made before), "An Architect" (Birmingham), "T. L." (Chester), "J. S.," "W. S.," "W. M.," "Old Subscriber" (we have several times stated what we know as to destroying ants, and cannot repeat ourselves), "J. C." "Humboldt's Cosmos," translated, with author's sanction, under direction of Colonel Sabine, 2 vols. (London, Longman and Co.; John Murray,—1849); "The Public Health with National Gain," pamph. (Ridgway—1849); "Tenant Right," digest of the evidence before Committee of House of Commons (London, Rogerson; Ridgway,—1849); "Railway Taxation," by S. Laing, Esq., pamph. (London, Vacher,—1849); "Rudimentary Mechanics," by Charles Tomlinson (Weale's Series).

"*Books, Prices, and Addresses.*"—We have not time to point out books or find addresses.

NOTICE.—All communications respecting *advertisements* should be addressed to the "Publisher," and not to the "Editor;" all other communications should be addressed to the EDITOR, and *not* to the publisher.

ADVERTISEMENTS.

ROYAL POLYTECHNIC INSTITUTION.—The Art of Magic illustrated and explained in Lectures, by Mr. Shaw, late pupil of Mr. D'Augurighac, daily, at a quarter to Four, and every evening at Nine. Dr. Ryan's Lecture on the Chemistry of the Breakfast Table, in which Mr. Moore's patented process for preserving milk for long voyages will be explained, daily, at a quarter to Three o'clock. Dr. Bachhoffner's Illustrations on Astronomy, Mondays, Wednesdays, and Fridays, at One o'clock. Ventilation of the Mines, &c., by means of the Steam Jet. A New View in the Gold District of California added to the new Dissolving Views. New Chromatrope. Machinery and Models explained, &c., &c. The Music is directed by Mr. Wallis.—Admission, to 1 School, half price.

TO ARCHITECTS.—COMPETITION AND OTHER DRAWINGS.

MR. THOMAS S. BOYS, Member of the New Society of Painters in Water Colours, and author of "The Picturesque Architecture of Paris, Ghent, Rouen, &c.," and of "London as it is," offers his services in Tinting Backgrounds, Landscapes, Perspective Views, Interiors, &c. From the long experience he has had in all subjects, he is fully aware of the points essentially necessary to be attended to. Drawings and Designs lithographed in a superior manner.—Address, Mr. BOYS, 51, Great Titchfield-street, Oxford-street.

PAPER-HANGINGS by MACHINE and PRINTING.—The Trade supplied, in town and country, with Machine Goods, from first-class new designs, at the lowest prices they have ever been sold at in this country; and Block Goods, for style and quality not to be surpassed by any house in England. All the designs are registered, and can only be supplied by HENNELL and PIDDSEY, Queen street, Southwark bridge-road, Cheapside; and house in London for sale, marbles, and panel decorations.

PAPER-HANGINGS, MANUFACTURED UNDER HER MAJESTY'S ROYAL LETTERS PATENT.

E. T. ARCHER, 451, Oxford-street, so-Lists on inspection of the various DECORATIVE PAPERS, fitted up in panels on the walls of the extensive range of apartments, built expressly for that purpose; where also is kept an extensive stock of every variety of Paper-hangings, at the lowest possible price and of the best manufacture, in English and French Designs, by the best Artists; and where may be had the largest assortment of French and other Continental Paper-hangings always on hand.—Builders and large Consumers are particularly invited to the above.—451, Oxford-street.

SNOXELL'S PATENT SAFETY REVOLVING WOOD SHUTTERS, Manufactory, 98, REGENT-STREET and 18, CHANCERY-LANE. Patent sealed on the 4th day of February, 1845, for Fourteen Years, for Improvements in Reversible Shutters of WOOD and IRON, consisting of New Methods of Raising and Lowering Shutters, without Machinery, and Two for Hinging and Shutting the Edges of Wood Laths with Iron.—The Patentee having fixed up some hundreds, will feel pleased in forwarding the Testimonials of Architects, Principals of large Establishments, and others, having them now in use, which fully guarantees the Patentee in stating they are beyond dispute superior to any other Revolving Shutter for durability, security, and simplicity, without the use of any wheel worm and screw gear, or any other complicated machinery employed by other makers.

BUNNETT and CORPE, ENGINEERS, Patentees of

REVOLVING IRON AND WOOD SAFETY SHUTTERS, and of

ORNAMENTAL METALLIC SASH BARS, MOULDINGS, &c. IN BRASS, COPPER, ZINC, &c.

FOR SHOP-FRONTS, SKYLIGHTS, &c.

Shop-fronts completely fitted and fixed in a superior style, either plain or ornamental, also glazed with best plate glass. Strong moulded stallboards handsomely engraved. Metal works and machinery of all kinds in connection with banking houses, shops, warehouses, &c. &c.

B. and C. challenge competition as to either quality or price. Designs furnished and estimates given.

IMPROVED PATENT BENCH AND FLOORING CRAMPS FOR BUILDERS.

SOLE LICENCEES FOR MARVIN AND MOORE'S PATENT DIAGONAL DRAWINGS.

Office of the Patentees, 58, Lombard-street, London; and at the Works, Deptford, Kent.

MOUNTED DRAWING PAPER.—HENRY POPE has in stock Drawing Paper, which had been mounted on Linen for TWO YEARS and UPWARDS, in various lengths; of 5 ft. 9 in., 3 ft. 3 in., and 4 ft. 4 in. wide. Tracing Papers, Drawing and Writing ditto, Envelopes, and every description of Stationery at wholesale prices. Publisher of Weaver's "Hints on Cottage Architecture," with Plans, Elevations, and Estimates, imperial 4to., cloth, 10s. 6d.—98, Hudge-row, Watling-street.

WHISHAW'S TELEKOUPHONON, or SPEAKING TELEGRAPH, for private and public buildings, mines, railway stations, railway trains, docks, ships, steam-boats, light-houses, hospitals, clubs, taverns, lunatic asylums, barracks, &c., &c.; from 4l. a-foot upwards.—Apply to Mr. EDWARDS, Agent, 9, John-street, Adelphi; at the Gutta Percha Works, Wharf-road, City-road, London; to Messrs. HORNE, THORNTHWAITE, and WOOD, Newgate-street, London; or to any of the country agents.

BUILDERS AND CONTRACTORS

TARPAULINS for COVERING ROOFS during Repairs, SCAFFOLD CORD and every description of ROPE used by Builders upon the lowest terms. Marquees and temporary awnings on sale or hire. Orders per post receive the most prompt attention.—WILLIAM PIGOTT, 113, Fore-Street, City, Manufacturer, by Appointment, to Her Majesty's Honourable Board of Ordnance.

LEAD.—Old Lead exchanged.—Builders and the Trade supplied with MILLED and CAST LEAD PIPES, of all sizes, at wholesale prices, at W. DENTH (late Burton and Denth), Lead Merchant and Plumber. Lead Trap and Service Pumps always ready. Manufacturer of Engine Pumps and Water Closets. A Patent Urinal Basin to be had only at No. 81, Newcastle-street, Strand.

J. and J. WRIGHT, VARNISH, JAPAN, and FRENCH POLISH MANUFACTURERS, respectfully inform their friends and the public that they have REMOVED their business from Hammersmith to more central and convenient premises, No. 134, HIGH HOLBORN (nine doors east of New Oxford-street), from whence all orders in future will be executed in fashion adapted to every description of decorative art of first-rate quality and durability at very reasonable prices. To those who pay cash is given the full advantage of so purchasing.

Just published, 8vo., price 1s., or sent post free for 1s. 6d.

BIELEFELD'S TARIFF of PAPIER MACHE FRAMES, containing 114 Engravings: including (the machine-made frame mouldings, which may be had in 12 feet lengths without join, or made up complete):

"The frames of Mr. Bielefeld possess the best characteristic of fine carving."—*Art Union Journal.*

"The work Mr. Bielefeld has perfected is one of remarkable elaborateness and beauty."—*Imagine Journal.*

By Her Majesty's royal letters patent.—The Works, 13, Wellington-street North, Strand.

HEAL and SON'S LIST of BEDDING, containing a full description of Weights, Sizes, and Prices, by which Purchasers are enabled to judge the articles best suited to make a good set of Bedding, sent free by Post, on application to their Factory, 196, (opposite the Chapel,) Tottenham Court Road, London.

PAINTING WITHOUT SMELL; a fact accomplished by the use of the newly-discovered SWEET OIL of TURPENTINE, instead of the deadly abomination called oil or spirits of turpentine. Paint mixed with it is free from smell, is improved in brilliancy of colour, and the baneful properties of the lead being neutralized, does not emit those noxious exhalations which have hitherto been so universally associated with painting. By this really valuable discovery house painting is now converted into a sanitary operation, that may be effected at any season of the year, being productive of health and comfort, without causing the slightest derangement to the domestic economy. Sold by the gallon, cask, or can, by every respectable oilman in the kingdom, and at the depôt, 1, Broad's-buildings, Chancery-lane, where may be seen a copious bond of the original certificate of Dr. Ferray, a senior member of the College of Chemistry. Sold also in sample bottles, 1s. and 2s. each, bottles included.

FIRE-PROOF FLOORS.—J. H. PORTER'S PATENT CORRUGATED IRON FIRE-PROOF FLOORS, although not more costly than those of materials with brickwork and concrete, are greatly more fire-proof than those with the common elements of the system.—Manufactory, Iron Building and Roofing Works, Southwark; office, 3, Adelaide-place, London-bridge, City.

INCREASED ECONOMY in BUILDING, combined with PROTECTION from FIRE, &c.—The following advantages result from the adoption of the "PATENT FIRE-PROOF FLOORS and ROOFS, viz.:—

Security from Fire.
Great Economy of Construction.
Increased Durability.
Protection from Dry rot and from noxious Insects and Vermin.

The economy of this system is very considerable; its cost, as compared with the common method of fire-proof building, being about one half; while, as compared with the ordinary timber floors, it effects a saving of from 10 to 25 per cent. The entire freedom from lateral thrust, in this method of building, gives it a further advantage over the plan of iron girders and brick arches. The system is applicable to all classes of buildings. It has been introduced at the Middlesex Hospital, where it can be seen at any time, and all information obtained of Messrs. FOX and BARRETT, Leicester Chambers, 45, Leicester-square.

FLEXIBLE INDIA-RUBBER PIPES AND TUBING.

For Railway Companies, Brewers, Distillers, Fire Engines, Gas Companies, Gardening and Agricultural purposes, &c.

THE PATENT VULCANIZED INDIA-RUBBER HOSE-PIPES are made to stand hot liquor, and acids without injury—do not become hard or stiff in any temperature but are always perfectly flexible; and as they require no application of oil or dressing, are particularly well adapted for locomotive engines, railway cranes, fire engines, pumps, gas, beer engines, gardens, and all purposes where a perfectly flexible pipe is required. Made all sizes, from ¼ inch bore upwards, and of any length to order. Vulcanized India rubber garden hose fitted with brass-taps, copper branch and rose complete, ready to be screwed to pump or water-butts, or cisterns. Sole manufacturer, JAMES LYNE HANCOCK, Goswell-mews, Goswell road, London.

N.B. Vulcanized India-rubber washers of all sizes for joints or hot-water and steam pipes, and vulcanized sheet rubber any thickness for all kinds of joints, and other purposes.

JORDAN'S PATENT MACHINE CARVING and MOULDING WORKS for WOOD and STONE, Palmerston road, Lambeth, and 138, Strand.—TAYLOR, WILLIAMS, and JORDAN beg to call the attention of the building community to the completion of their establishment, and at the same time to thank their numerous patrons and friends for the very liberal support they have lately experienced, which, they assure them and the public, it will be their constant endeavour to deserve, by giving their customers an increased share of the advantages arising from the recent improvements in their machinery which they have just succeeded in applying to the production of the most intricate carving in Oaen and other freestones, and in statuary marble.

T., W., and J. particularly solicit the attention of architects and builders to the fact that, by the use of this machinery, a very large saving, both of time and money, is effected,—so great, indeed, that in many cases they can deliver a well-finished article in Caen stone for less money than it can be obtained in cement, while their wood-carving will, in some cases, be found to come into close competition with the best kinds of composition ornament.—For prices and estimates apply at 134, Strand.

TESTIMONIAL FROM CHARLES BARRY, ESQ.

Westminster, May 16th, 1848.

"Gentlemen,—In reply to your letter requesting my opinion of your recent Carving Machinery, I have much pleasure in stating, from an experience of more than two years in its application to the production of the wood carvings of the House of Peers, and other apartments of the New Palace, at Westminster, that I am enabled to make the most favourable report concerning it, and to add that it has more than justified the favourable terms in which I recommended it in 1843 to her Majesty's Commissioners of Woods and Works for adoption.—I remain, Gentlemen, yours faithfully,

CHARLES BARRY.

"Messrs. Taylor, Williams, and Jordan."

ROMAN CEMENT, made according to the specification of Parker's Patent, may be had genuine of J. M. BLASHFIELD (late Wyatt, Parker, and Co.), Waterloo Bank Wharf, Commercial-road, Lambeth, No. 1, from the Wharf, Paddington, and at the Manufactory, Mill Walk, Poplar. Also Plaster, Mastic, Terras, Bricks, Tiles, &c.

VEINED AND SICILIAN MARBLE

in Scantlings and Slabs of the first quality, just imported.

PARIAN CEMENT, for internal Stucco, instead of PLASTER OF PARIS, may be painted and papered within twenty hours of its application on the bare walls; and permanently be rendered habitable by the use before the materials commonly adopted would begin to dry. It is worked without the slightest difficulty. A finer quality is also prepared for ornamental plastering, for encaustic painting, &c. &c. Specimens of which may be seen at the Manufactory of the Patentees, CHAS. FRANCIS and SONS, Cement Works, New Lime, Liverpool.

KEENE'S PATENT MARBLE CEMENT forms an exceedingly hard and indestructible stucco, which may either be prepared for paint, or finished in imitation of stone, by the addition of Portland or other stone dust.

It is a cheap and efficient substitute in place of wood for skirting, architraves, and other mouldings, in the applications for which purpose it checks the progress of Fire and the attacks of Vermin.

Patentees and sole Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster, and Canal-street, Liverpool.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement but has the advantage over that material of wholly resisting frost; and when used as a stucco it does not separate or turn green in damp situations, and requires no retouching. Employed as an hydraulic mortar for brickwork, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior cementing power, combined with its remarkable hydraulic properties, point it out as the finest material for building sea and river embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufactory—J. B. WHITE and SON, Millbank-street, Westminster, and 26, Canal-street, Liverpool.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to Nos. 1,444, 1,445, 1,446, and also Nos. 1,504 and 1,505, page 331 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, wherein the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water in a manner in the remunerative qualities harder, and more durable than any other description of Cement; it does not recreate, or dust, or turn green; nor is it affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable to the Proprietors challenge competition, as testified by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also by their Agent at the Depôt, 1, Back Gorse, Liverpool.

JOHNS and CO.'S PATENT STUCCO CEMENT and PAINT.—The attention of Architects, Builders, Plasterers, Painters, Merchants, and the Public generally is solicited to the many advantages attached to these celebrated Materials, which, for their appearance, durability, impervousness, utter resistance to frost or heat, and ornamental economy, distinguish them from all other cements and paints, and fully justify the confidence reposed in them, as shown by the numerous testimonials received from public bodies and private individuals of the first importance.—Prospectuses and particulars may be obtained from the sole agent, PHILIP HARE, at the Warehouse, 21, Steel-yard, Upper Thames-street.

MARTIN'S PATENT FIRE-PROOF and ORNAMENTAL CEMENT.—REDUCTION of PRICE.—The Patentees beg to inform their Friends and the Public that they have made arrangements which enable them to offer this invaluable Cement at a considerably reduced price from that at which it has been before the public as many years, and has obtained a high standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. The Patentees, however, feel called upon to observe, that by its use—from the greater amount of surface it spreads over, its great covering power, and the small amount of labour required in working it, a saving of 25 in 30 per cent. is effected as compared with other cements for internal use; specimens shewing its tenacity, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement in any quantity obtained of the Patentees, Messrs. STEVENS and SON, at their Plaster and Cement Works, 106, Drury-lane, London.

WARWICKSHIRE CEMENT.—To Architects, Engineers, Contractors, and Builders.—R. BREAVES submits the notice of the Profession and Trade to the very superior CEMENT he is now manufacturing at his Works, situated on Avon and Southam; the "Warwickshire" resembling "Caen" stone, and the "Improved" a dark tint of the "Bath," both of which will be found unequalled, especially for hydraulic purposes.

GROUND LIAS LIME FOR CONCRETE, &c.

N.B. Glazed Stone-Ware Pipes on sale.

To be had at Messrs. Kelly and Verry, 5, South Wharf, Paddington, and at Messrs. Gladstone's, Pedlar's Acre, Lambeth, and Pratt's Wharf, Camden Town.

AGENTS.—Manchester—J. Thompson, Back King-street; Liverpool—T. Wylie, 31, Gloucester-street; Belfast—W. and F. Lewis; Glasgow—W. Brown, 164, Broomielaw; Oxford—E. Oyer, Canal Wharf; Chester—J. Harrison, Linenhall-street; Warrington—F. Bradley, Bank; Evesham—H. Burlingham and Co.; Birmingham—J. Hodgehill, Berkley-street.

TO THE BUILDING PUBLIC.

FIRST-RATE ORNAMENTS in PORTLAND, ROMAN and other CEMENTS, and PLASTER of PARIS, at reasonable prices, consisting of Vases, Balusters, Capitals, perforated Panel-lines, Cantilevers, Brackets, Trusses, Scrolls, Rosettes, Marquess, Heads, Pateræ, Friezes, Mantle and other Chimney Shafts, Sills, Bed-mouldings, Paterae, &c. &c. in one Centre. Flowers fixed complete, 3in each, smaller in proportion. An assortment of Shops from Trusses always ready for fixing.—HERBERT and SON, Modellers, &c. 42, Parker-st., Drury lane.

TODD'S PATENT METALLIC PROTOXIDE PAINT, for Stones, Fronts, Brickwork, Iron, Wood, and every description of Painting. This Paint has been used severely tested for nearly four years, by men of great experience, and has been extensively used under the superintendence of Architects, Engineers, and Surveyors of the greatest eminence.—Orders to be addressed to Mr. R. TODD, Patentee, 33, Bread-street Soho, London.

EMERSON'S PATENT LIQUID CEMENT is ready for use, by simple application, and only ONE EIGHTH the cost of oil paint, for beauty of finish, and over all other materials used on the fronts of houses, gives the exact appearance of FINE CUT STONE; can be used at once on fresh Roman cement or other pointings, is particularly calculated for country houses, villas, or gate entrances, that have become defaced by the effects of the weather, which can be renewed, at a trifling cost.—Sold in casks of 5, 8, and 12 gals., at 8s., 13s. and 21s. each.

PATENT MINERAL PAINT.

Invaluable as a coating for IRIDISE PIPES AND BOTTOMS, all kinds of WOOD or METAL work, roofing felts, slaty roofs, spouts and gutters, doors, sheds, railing, and all kinds of out-door work, and being perfectly waterproof, will preserve their surfaces from atmospheric influence and decay.—Requires no preparation, and will dry in a few hours.—Sold in casks, 7 to 30 gallons. Brilliant Black, 3s.; Red, Brown, 3s. 6d. per gallon.

GEORGE LEAK and Co., No. 18, Basing-lane, Cheapside.

DAMP WALLS.—FUSIBLE MINERAL CEMENT PAPER.—The inventor of the above, after many years' experience on the continent, and particularly at Hamburgh since the great fire, has been here to introduce the same in England, as the only effectual means of rendering a damp wall dry. It is made in sheets of 21 inches by 25 inches, at 6d. per sheet; can be applied to any paper-hanger having the necessary instructions, and is warranted to answer the purpose. For the country, the measure of the damp wall is requested in square feet, when the paper, with full instructions, will be forwarded on the receipt of a reference in London.—THOMAS FURZE, Sole Manufacturer, 98, High street, Whitechapel, London.

N.B. Fusible Mineral Cement, to order, at 3s. per cwt.
